12.

Do not circulate social media posts which carry unverified or negative information

13.

Seek information on COVID-19 from credible sources

14.

Call National Toll-free helpline 1075 or State helpline numbers for any queries

15.

Seek psychosocial support for any stress or anxiety

# 1. Greet without physical contact

## 2. Maintain Physical distance

**Especially when you go out to get anything checked or signed from teacher or office staff follow distancing norms.**

**Also follow distancing norms when in a room / office with other people**

### **3. Wear reusable hand- made face-cover or mask, at all times**

**A handmade face cover or mask limits the spread of any respiratory infection and protects the community at large**

## How to wear a mask

1. Wear mask so nasal clip is over the nose. External pleats should face downwards

2. Open mask pleats so it covers mouth and nose

3. Tie upper strings first. Then lower strings. There should be no gap between face and mask

4. Do not touch front of the mask

5. Remove by first untying lower string and then upper string.

6. Replace mask after 8 hours or when damp/humid

7. Dispose the mask in the recommended manner

8. Clean hands after removal of mask

9. Do not reuse single use mask

**Remember three key occasions one must definitely wear a face cover or mask**

- 1. When you undertake any essential travel or go to a public place**
- 2. When you are in a room with other people**
- 3. When you have any signs of cough, cold or flu**

**You can easily make a face cover at home to protect yourself**

**Really?**

**Yes, just log on to [www.mohfw.gov.in](http://www.mohfw.gov.in) and read the manual on how to make a face cover**

Always remember, wash hands with soap and water or use an alcohol based sanitizer before wearing a mask

## 4. Avoid touching your eyes, nose or mouth

We tend to touch our face inadvertently...  
let's be extra careful

But Why?

**Hands touch many surfaces  
and can easily pick up germs  
and viruses**

**Once contaminated, hands  
can transfer the virus to  
your eyes, nose or mouth**

**From there, the virus  
can enter your body  
and can make you sick**

**Your safety is in your own hands-  
quite literally!**

## 5. Maintain respiratory hygiene

Cover your  
nose and  
mouth when  
you cough or  
sneeze with  
tissue or  
handkerchief

**Not carrying a tissue or  
handkerchief?  
Cough or sneeze into  
your bent elbow**

**Don't forget...  
Wash hands  
immediately after you  
cough or sneeze**

## 6. Wash hands frequently and thoroughly!

Your safety is in your hands – Literally!

Wash your hands frequently and thoroughly with soap and water

**Meet our hand  
hygiene superheroes**

**Frequently hand-wash with me using water.  
I am there to protect you from any virus,  
including COVID-19**

**ALCOHOL-BASED HAND SANITIZER**  
**You can use me if you don't have  
soap and water facility.**

## 7. Regularly clean and disinfect frequently touched surfaces

Practicing good environmental hygiene makes your surroundings safer.

Because the infected droplets are likely to settle on surrounding surfaces.

You may use chemical disinfectants to clean the surfaces, wearing gloves

## **8. Do not spit in the open**

**Every time you spit in a public place, you put  
your and everyone else's life at risk**

**Spitting in public places  
can increase the risk of  
COVID-19 spread**

**This also includes spitting  
after consuming smokeless  
tobacco products**

**Remember - Spitting in public places is also punishable by law**

## 9. Avoid unnecessary travel

Travel only when it's  
absolutely essential

## **10. Do not discriminate - Against anyone!**

**Show compassion and support to persons affected with COVID-19 and their families**

**Remember – As people keep a check on any symptoms associated with COVID-19 and are willing to undergo testing, they also provide an opportunity to beat the disease!**

**Download the Aarogya Setu app to  
monitor your health**

# 11. Discourage crowd

## - Encourage safety

Keep a reasonable distance of atleast 2 Gaj(6 feet) from others

For important events which cannot be postponed,  
keep the number of guests to minimal

**Oh, have you tried connecting with your loved ones and colleagues virtually?**

**Try it, it is much safer!**

## 12. Do not circulate social media posts which carry unverified or negative information

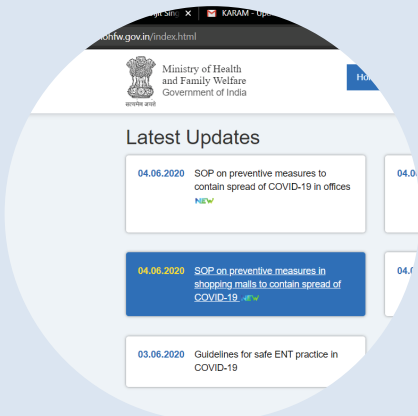

## 13. Seek information on COVID-19 from credible sources

There is COVID-19 related information coming in from so many sources. Which one should I rely on?

The most credible source for COVID-19 information is Ministry of Health and Family Welfare's website ([www.mohfw.com](http://www.mohfw.com)). You will receive all updated information and facts related to COVID-19 here.

**14. Call national toll free helpline numbers 1075 or State helpline numbers for any COVID-19 related queries**

**If you have any COVID-19 related queries or observe any COVID-19 related symptoms like fever, cough, or difficulty in breathing, call the national helpline number 1075 (toll free)**

**Do not hesitate to disclose your symptoms**

**The earlier you seek help, the faster you will beat the disease!**

## 15. Seek psychosocial support in case of any distress or anxiety

**Coping with any public emergency or outbreak can be a testing time for people and their families – both affected or unaffected**

**Do not ignore or suppress any feelings of anxiety or distress**

**Psychosocial support services are available  
at all times for you,  
to address any stress or distress related  
queries and concerns**

**Call on national psychosocial  
toll-free helpline number  
08046110007**

Together,  
we will fight COVID-19!
